Promoting Early Development and Health for Newborns

In the world of infant nutrition, Pronuben Baby Premium 0-6 Months stands out as an incredible innovation to support the healthy development and nourishment of newborns up to 6 months old. This specialized formula, based on dairy, is carefully crafted to offer a complete solution for optimal nourishment, enriched with vital nutrients.

Right from the beginning of life, meeting the nutritional requirements of newborns is crucial. Pronuben Baby Premium 0-6 Months has been specially formulated to lay a strong groundwork for their development, ensuring that every feeding contributes significantly to their overall health and growth.

Demineralized whey, vegetable oils (palm, rapeseed, sunflower and high oleic sunflower) skimmed milk, lactose, galactooligosaccharides, minerals (trisodium citrate, calcium citrate, potassium citrate, monocalcium phosphate, calcium chloride, calcium hydroxide, potassium chloride, potassium hydroxide, magnesium sulphate, ferrous sulphate, zinc sulphate, copper sulfate, manganese sulfate, potassium iodide and sodium selenite), fish oil (source of DHA), emulsifier (sunflower lecithin), Morteriella alpina oil (source of ARA), fructooligosaccharides, , vitamins (C, E, B3, pantothenic acid, B2, A, B1, B6, folic acid, K1, biotin, D, B12), choline chloride, taurine, inositol, L-carnitine, nucleotides (cytidine 5' monophosphate, disodium uridine 5' monophosphate, adenosine 5' monophosphate, disodium guanosine 5' monophosphate, disodium inosine 5' monophosphate), antioxidants (Ascorbyl palmitate and mix of tocopherols).

Key Highlights:

Pronuben Premium 1, designed for infants from 0 to 6 months, prioritizes digestive health through specialized components. **Galacto-oligosaccharides** (GOS) and Fructo-oligosaccharides (FOS) are integrated into this formula, serving as prebiotic fibers that foster a well-balanced intestinal environment. These fibers stimulate the growth of beneficial gut bacteria, promoting digestive ease for your baby.

Rich in ARA and DHA, our formula supports crucial aspects of development. Arachidonic Acid (ARA) contributes significantly to brain and eye development, while Docosahexaenoic Acid (DHA) is renowned for its cognitive and visual benefits. Pronuben Premium 1 enhances your child's cognitive potential and visual acuity.

Nucleotides, fundamental in DNA and RNA composition, are vital for cellular growth and repair. Our formula is fortified with nucleotides, essential for overall development, bolstering immune response and resilience.

Acknowledging the pivotal role of vitamins in early childhood, Pronuben Premium 1 incorporates a comprehensive range of essential vitamins to provide holistic nutritional support for your infant's growth and development.

Discover Pronuben Baby Premium 1: Excellence in Infant Nutrition

In the exciting journey of parenthood, choosing the right formula is crucial. Pronuben Baby Premium 1 is more than just an infant starter formula; it embodies a standard of excellence in infant nutrition designed for babies from 0 to 6 months.

Optimal Nutrition for Healthy Growth

With Pronuben Baby Premium 1, babies receive the perfect balance of essential nutrients. Rich in ARA and DHA, crucial fats for brain and visual development, and fortified with GOS and FOS, prebiotic fibers supporting digestive health, we ensure healthy growth.

Formula Enriched with Key Vitamins and Minerals

The product contains nucleotides and is a rich source of calcium and iron, vital elements for bone development and the immune system in babies.

Reliable Nutrition, Unconditional Love

Pronuben understands the importance of providing reliable and loving nutrition for babies. Their commitment is to ensure that each growth stage is supported with products designed with care and precision.

Discover the power of Pronuben Baby Premium 1, the wise choice for a healthy start for babies.
