Nurturing Growth Excellence for Toddlers

In the realm of pediatric nutrition, Pronuben Baby Premium 3 emerges as a remarkable advancement in supporting the healthy growth and development of infants and toddlers aged 1 to 3 years. This dairy-based growth formula is meticulously formulated to provide a holistic solution for optimal nourishment, fortified with an array of essential components.

From the very first stages of life, the nutritional needs of infants and toddlers are of paramount importance. Pronuben Baby Premium 3 has been thoughtfully designed to provide a solid foundation for their growth, ensuring that every sip contributes to their overall well-being.

INGREDIENTS

Skimmed **milk**, **lactose**, vegetable oils (palm, rapeseed, sunflower and high oleic sunflower), **galactooligosaccharides**, fructooligosaccharides, **fish** oil (source of DHA), Mortierella alpina oil (source of ARA), emulsifier (sunflower lecithin), choline chloride, minerals (, calcium hydroxide, ferrous sulphate, zinc sulphate, copper sulphate, manganese sulphate, potassium iodide and sodium selenite), vitamins (C, E, B3, pantothenic acid, B2, A, B1, B6, folic acid, K1, biotin, D, B12), inositol, taurine, L-carnitine, nucleotides (cytidine 5' monophosphate, disodium uridine 5' monophosphate, adenosine 5' monophosphate, disodium guanosine 5' monophosphate, disodium inosine 5' monophosphate), antioxidants (Ascorbyl palmitate and mix of tocopherols).

Key Highlights:

Fiber Enrichment: Pronuben Baby Premium 3 takes a significant stride towards digestive health by incorporating Galacto-oligosaccharides (GOS) and Fructo-oligosaccharides (FOS), prebiotic fibers that foster a balanced intestinal environment. These fibers promote the growth of beneficial gut bacteria, ensuring digestive comfort for your child.

ARA and DHA: Our formula boasts the presence of Arachidonic Acid (ARA) and Docosahexaenoic Acid (DHA). ARA plays a pivotal role in brain and eye development, while DHA is renowned for its cognitive and visual benefits. Pronuben Baby Premium 3 empowers your child's cognitive potential and visual acuity.

Nucleotides: Nucleotides are the building blocks of DNA and RNA, critical for cellular growth and repair. Our formula is fortified with nucleotides to support overall development, enhancing immune response and resilience.

Vitamin Fortification: Recognizing the significance of vitamins in early childhood development, Pronuben Baby Premium 3 includes a balanced array of essential vitamins, ensuring comprehensive nutritional support.

Innovation at Its Core: Pioneering Pediatric Nutrition

At Pronuben, we believe in providing the best start in life for every child, and Pronuben Baby Premium 3 is our commitment to excellence in pediatric nutrition. We understand the importance of selecting the right nutrition on the journey of parenthood.

Comprehensive Nutrition: Pronuben Baby Premium 3 is a meticulously designed formula to support your child's overall development. From brain health with ARA and DHA to immune support with nucleotides, each component is carefully chosen for a complete nutritional profile.

Clinical Excellence: Our formula is backed by rigorous clinical trials and the expertise of pediatricians and nutritionists. This ensures that Pronuben Baby Premium 3 not only promotes physical growth but also cognitive and visual development in your child.

Primary Focus on Safety: Safety is our top priority. From selecting premium ingredients to adhering to manufacturing standards, we strive to ensure the quality and safety of our product.

A Path to Comprehensive Development: Pronuben Baby Premium 3 is here to be your ally, offering the nutritional foundation that every baby deserves. Trust Pronuben to nurture each little one's potential in a safe and balanced manner. Every nutrient plays a crucial role, and every stage is of utmost importance.
